

Gonex Innovation Hub

IDEAS POWERED HERE.

Presented by: Yongama Goso, Founder

ABOUT GONEX INNOVATION HUB

Gonex Innovation Hub is a public benefit organisation accelerating digital and economic inclusion through technology and innovation. We operate through a hybrid model: a 100% black-owned Level 1 B-BBEE private company and an NPC focused on high-impact development programmes.

Vision & Mission

To transform underserved communities, especially black youth and women, via scalable tech-based solutions.

Opportunity Scope

: addressing the critical digital skills gap affecting 50,000+ youth in our region while creating sustainable economic development.

The Problem We're Solving

Rural Sterkspruit faces a crisis of opportunity:

- 60%+ youth unemployment in our community
- Zero access to digital skills training within 100km radius
- R290 billion digital economy growing in South Africa, but rural youth excluded
- 2.3 million youth in Eastern Cape with minimal digital skills access

Our Solution

Gonex Innovation Hub will be the first rural technology center in the region. Our value proposition lies in delivering: combined innovation, accessibility, and efficiency to create long-term impact.

Core Benefit

- 

Entrepreneurship Development - Business planning, financial literacy, startup support
- 

Co-working Space - 20 workstations with high-speed internet
- 

Community Innovation Programs - Hackathons, pitch competitions, mentorship
- 

Digital Literacy Training - Microsoft Office, internet skills, email communication, Coding Bootcamps

Value Proposition

Our Operational Framework

Structured for Impact: As a registered Public Benefit Organisation (PBO), we reinvest all surplus into community-centred initiatives, ensuring accountability and alignment with public good objectives.

This robust structure ensures that your investment is not only socially impactful but also strategically sound, accountable, and eligible for a wide range of impact-driven partnerships.

B-BBEE Codes

Contributing directly to your and our Socio-Economic Development and Skills Development scorecards.

IRIS+ Metrics

Ensuring our impact is measurable, comparable, and meets global impact investment standards.

United Nations SDGs

Directly contributing to SDG 4 (Quality Education), SDG 8 (Decent Work & Economic Growth), and SDG 9 (Industry, Innovation & Infrastructure).

Market Opportunity

Validated ICT Incubator Demand

Gonex Innovation Hub targets entrepreneurs with business ideas who reside inSterkspruit region and outside the region, including university students and graduates with a focus on ICT and engineering-based subjects. They've proven the model works in our province.

Sterkspruit's Unique Advantages:

- Strategic location near Lesotho border = cross-border opportunities
- Existing agricultural base = agri-tech innovation potential
- Government investment interest (JoGEDA commercial development rights)
- Growing energy sector presence = skilled workforce demand

First-Mover Advantage:

- Nearest tech training center is 400km away in East London
- No innovation hubs exist in the entire Joe Gqabi District

Market Size	2,000 youth actively seeking skills training in our 15km radius
Target Audience	106 schools in surrounding area with no technology training access
Trends & Patterns	Shifts in behavior creating room for innovation.
Competitive Gaps	Zero competing innovation hubs or tech training facilities

Business Model

A strong business model ensures sustainability and profitability. Our framework combines diverse revenue streams with efficient cost structures.

By aligning operations with customer value creation, we generate recurring income and long-term loyalty.

Revenue Streams	Grant & Partnership Revenue
Cost Efficiency	Business Services
Retention & Loyalty	Programs that keep customers engaged.
